

SMART CUP DISPENSER

The modern multi-size cup dispenser is specially designed for attachment adjacent too,; **Water Coolers, Coffee Machines, and All Other Beverage Dispensers.**

The mid section of the dispenser is made from a tough, translucent plastic which allows the cup level to be seen from a distance.

The **SMARTCUP** will take all cup types, paper, foam or plastic from 115ml up to 285ml and some 340ml cups. Note rim details below. Turning a simple dial at the back changes the cup size.

SMARTCUP provides a hygienic storage solution, protecting against contamination by dust, poor handling or unclean surfaces. The stylish cabinet features a flush fitting hinged lid that opens right back for easy refilling. Cups are kept cleaner, in the fully enclosed **UNICUP** dispenser.

Improve customer service and improve reorder sales of cups and drink products! Mount to walls and panels with adhesive foam pads or screws. Suitable for back and side mounting.
